

Deutsche Telekom Services Europe Czech Republic is a subsidiary and internal service provider of the Deutsche Telekom group; with headquarter in Bonn, Germany. After years of continuous growth, we reached a European footprint, being present in four countries. We built up a center of excellence where different areas of expertise meet innovation and creativity. We work in a highly dynamic and international environment; our people enjoy opportunities to learn, develop and grow, in hard skills as well as soft skills, helping them as individual and as leaders.

Data Analytics Team analyses end-to-end process flows in any system (e.g. SAP) based on the digital footprints and makes them visual and reportable in real time on big data level. We offer completely new insights and reporting/steering capabilities. We shape the future through big Data analysis. For our Team, we are looking for 2 Summer Interns for a period of 3 months, with start date: 1th of June or 1th of July 2018.

What you will learn:

- Design and execution of diverse Analyses in Procure-to-pay (Procurement area of Deutsche Telekom)
- Development of data models (data model design, SQL Scripts)
- Project management support
- Visualization of Process related Data with SAP Process Mining by Celonis or other modern tools

Who you are:

- Enrolled in a Bachelor or Master Degree Program in Economics, Management or IT
- Fluent English, German is optional but advantage
- Eager to learn from experts from around the world
- Passionate for Big Data and Business Intelligence
- Able to think analytically

Our Offer:

- Paid summer Internship in an international environment
- Refreshment (coffee and fruits available in the office)
- Gain experience through real life projects
- Access to Learning and Personal Development HUB
- Friendly environment
- Mentorship Program
- Company Events

Interested in shaping the future of Data Analytics and make an impact? Send your Cv to Mrs. Barbora Javorová, at Barbora.Javorova@telekom.com We look forward to your application!
